# IDISTRIBUTE: ERP AND DISTRIBUTION MANAGEMENT

**Gillani, an IBM Premier Business Partner for over 5 years, is a leading provider of ERP and Supply Chain management software. Gillani offers iDistribute, ERP/ Distribution Management Solution with Gillani Financials, an integrated Financial Management Solution to small and mid-sized businesses across the globe. Gillani iDistribute is based on the powerful FourGen Distribution/Accounting system with a legacy of over 20 years in the ERP/ Distribution arena.**

**Gillani extends its commitment to build applications in line with IBM's initiative to build a strong industry support for Linux, providing flexible architecture with lower overall Total Cost of Ownership (TCO), and exceptional cost-for-performance benefits, quality and scalability.**

## SOLUTION OVERVIEW.

Gillani offers iDistribute™, an SCM solution that focuses on distribution processes that help distributors win and keep customers.

iDistribute connects suppliers, distributors, customers and internal operations to optimize processes across functional boundaries. It includes fully integrated financial-management functions. The solution has achieved an optimized level in the IBM PartnerWorld® Industry Networks (PWIN) program for wholesale and retail industries.

iDistribute is written in IBM Informix® 4GL, which runs IBM Informix Dynamic Server (IDS) for Linux®.

IBM Express Advantage™ components:

- IBM xSeries® 206 Express Model
- IBM Express Runtime, Version 2.1.1
- IBM Informix 4GL Compiler Development and Compiler Runtime Licenses

## PROVEN CLIENT SUCCESS.

RoI Manufacturing needed to respond dynamically to customer demands, streamline and optimize its business processes, and integrate its programs while maintaining business continuity.

The iDistribute and IBM Express solution delivers fast and accurate transaction processing, responsive budgeting and forecasting, and fast execution for real-time reporting. It helps to lower inventory costs and increase order fill rates. Users are able to customize software to meet their specific needs.

The solution integrates operations for a single view, maintaining visibility and transparency. It provides a powerful accounting structure. Users can view multiple books in a single financial structure with multicurrency, audit reporting and cash management.

Solutions developed and priced by IBM Business Partners for mid-sized businesses including one or more IBM Express Advantage Offerings. The Built on IBM Express Advantage Offerings emblem indicates that the solution has been successfully implemented within a mid-market environment.

### INDUSTRIES:

Cross-Industry
