

IBM Federal Cloud Innovation Center

IBM Federal Cloud Innovation Center event “IBM BlueMix and DevOps in the Cloud”

Tuesday May 6, 2014, 8:00 AM - 12:00 PM noon
IBM, 600 14th Street, NW - 2nd Floor, Washington, D.C.

ABSTRACT

With the ever-increasing pace of change in information technology, data creation and utilization, and digital outreach, departments and agencies are demanding new application creation in days rather than weeks or months. Simultaneously, the cloud is redefining how government structures their enterprise to meet mission needs. It is estimated that by 2016 more than one-fourth of the world's applications will be available in the cloud, and 85 percent of new software is now being built for cloud deployment.

The dual demands of cloud and application speed are driving a movement towards a scalable and flexible cloud computing model that provides application developers with the freedom to innovate while using secure and enterprise-grade cloud services. IBM's BlueMix delivers a composable services development environment for the cloud, built using open standards. Developers can rapidly prototype composable applications and are empowered with the flexibility to support hybrid cloud environments and automated provisioning of platforms. IBM's DevOps is a fully integrated environment for deploying, monitoring, scaling and managing your application.

Please join our host, Andras Szakal, U.S. IBM Federal Vice President and Chief Technology Officer, in a dialog of the key considerations shaping software-driven innovation through the merging of cloud based composable development, DevOps, and conventional application development. IBM's comprehensive quick application creation in the cloud will be demonstrated on the IBM SoftLayer commercial cloud.

We look forward to exploring with you how the Federal Government can effectively engage the power of IBM offerings to deliver accelerated value and support the continuous optimization and delivery of your agency's mission.

“IBM: Helping clients achieve continuous delivery of software driven innovation with greater speed, lower costs and improved quality”

AGENDA

Time Topic

8:00 AM **Arrival and Continental Breakfast**

8:30 AM **Welcome**

Andras Szakal, VP & Chief Technology Officer, IBM Federal

Paul Giangarra, Distinguished Engineer, IBM Federal

8:45 AM **What is BlueMix?**

David Barnes, Program Director, Emerging Internet Technologies, IBM

9:30 AM **The BlueMix Architecture**

Bala Rajaraman, Distinguished Engineer, Cloud Infrastructure, IBM

10:30 AM **Break**

10:45 AM **DevOps in the Cloud**

Sanjeev Sharma, DevOps Technical Specialist, IBM

11:45 AM **Summary**

Andras Szakal

12:00 PM **Adjourn**

Cloud Program Strategy, IBM Federal

Metro & Parking Information for IBM: Metro Center is the closest Metro station and is served by the Blue, Orange & Red Lines.

After exiting the station walk west (toward The White House). IBM is located in the Hamilton Square Building on the NW corner of 14th & F Streets.

The lobby entrance is on 14th Street. Metropolitan Square Parking Garage has entrances on G & F Streets between 14th & 15th Streets.

Additional parking is available in the area. The closest is across F Street at the Willard & W Hotels.

=====

Notice to Government Employees & Representatives - Food & Refreshments

At this IBM function, IBM is providing food and refreshments and considers this a normal business courtesy. Some Federal, State, or Local Government Agencies

do not permit their employees to accept food or refreshments from contractors doing business with them. If your agency requires, or if you desire, you may pay the

fair market value for the food and refreshments you consume. A receipt will be provided upon request.

Notice to Government Employees & Representatives - IBM Training & Education

IBM conducts marketing presentations, executive briefings, product exhibitions and demonstrations, seminars and other sessions to familiarize customers and potential customers with IBM solutions to information processing problems. In accordance with established IBM practices, these sessions are provided at no charge.

Some government agencies permit acceptance of this training by employees; other agencies may not. You should ascertain whether your agency's standards of conduct

regulations permit you to attend this IBM-sponsored education or training session, as it is not IBM's intent or desire that either you, your organization, or IBM violate any

statutes or regulations. Under IBM's established business practices, the fair market value for nonbillable IBM education or training session is zero, as it is normally provided to

commercial customers, government customers and potential customers on a no-charge basis. The offer of IBM training or education made in conjunction with this notice is

void where prohibited by federal, state or local government statute or regulation.
