

4 - 8 May, 2009

Brussels, Belgium

## z Can Do IT. Information Infrastructure for The World's Most Demanding Customers.

IBM System z Technical Conference, featuring z/OS®, z/VM®, z/VSE™, Linux on System z and Storage, is the IBM conference devoted to you, the skilled professionals who support the mainframe environment.

Acquire the System z skills you need to support the New Enterprise Data Center, an evolutionary new model for efficient IT service delivery : virtualized, real time integration of transactions, integration and analytics, business driven services, and service oriented.

Technical experts from IBM System z™ development, System z customers, and the community of independent software vendor (ISV) providers will share their experience and expertise for a memorable week of technical education. More than 200 sessions cover technology topics and new products including:

- IBM System z10® Enterprise Class (z10 EC) and Business Class (z10 BC)
- IBM System z10® Hiperdispatch, Capacity on Demand, and Specialty Engines
- IBM z/OS® V1.10 new features and migration
- IBM z/VM® V5.4 extending virtualization technology
- IBM z/VSE™ V4.2 for growing workloads
- Linux® on IBM System z
- IBM WebSphere® Application Server for z/OS and Java for z/OS
- IBM DB2® and Business Intelligence (BI) for System z
- The latest functions in IBM Geographically Dispersed Parallel Sysplex™ (GDPS®) and IBM Parallel Sysplex® support
- Service Oriented Architecture (SOA), service management, and the System z platform
- System z leadership in virtualization
- Mainframe software consolidation and pricing
- System Storage and Storage networking
- IBM System z security, networking and performance
- System z technology , platform selection and the green data center
- Developing the Next Generation of System z professionals

Authorized

**IBM | Training**
