

The planet is getting smarter...

Are your skills ready for what's ahead?

The world is changing. You can watch it happen, or use your skills to help power the transformation. We can help you gain the knowledge and confidence you need to meet the challenges of a more instrumented, interconnected and intelligent planet.

You can be an agent of change

We can help. As a global leader in technology training and an organisation committed to the idea of building a smarter planet, IBM has the expansive reach and unparalleled depth to help you gain the technical skills you'll need to take your career to the next level:

- **Curricula across the IT spectrum** – Thousands of courses in more than two dozen topic areas.
- **Training paths for career development** – Guidance to show you what courses to take, and in what order.
- **Certification opportunities** – Earn your credentials in IBM and IBM-partner technologies.
- **Expert instructors, world-class content** – Our students come back again and again for training that grows with their skills.

Learning that fits your life

Public classes. Get certified, gain new skills, give your career a boost. More than 50,000 classes scheduled annually at IBM or IBM-authorized facilities worldwide. Training in software, systems and networking curriculum disciplines.

ibm.com/training/uk/catalogue

Private/onsite training. Delivered at an IBM site or your location, off-the-shelf or customised to meet your company's specific training needs. An efficient way to train your entire team at once, onsite training from IBM offers all the benefits of our public classes, plus it allows you to:

- Bring customised expert technical know-how to your implementation or development project;
- Train multiple employees at lower cost;
- Schedule learning around your team's workload demands;
- Eliminate travel and hotel expenses;
- Re-skill critical employees with minimal downtime.

e-Learning. Train without limits. Learn at your own pace, or in a real-time Web-based classroom with peers around the world. On its own or as a complement to classroom instruction, e-learning from IBM gives you maximum control over your training.

Our e-learning formats:

- **Instructor-led online:** Live classroom instruction, complete with instructor-student interactivity, delivered to your desktop.
ibm.com/training/us/ilo
- **Self-paced virtual:** Web-based assignments and hands-on labs; interact with instructors through the IBM Learner Portal.
- **Basic online:** Learn at your own pace, at your own desktop, with these totally self-contained courses, available as single titles or curriculum bundles.

Training is a bright idea

Paying for it with the IBM Education Pack – is genius.

When you plan ahead and pay for up to a year's worth of training in advance, the IBM Education Pack – rewards you with up to 15% savings on the top-notch classroom training, technical conferences and e-learning offerings that IBM is renowned for.

This account gives you valuable flexibility:

- **Save money!** Lock in available training budget now, use them for a full year.
- **Save time!** Train anyone – or everyone – in the company with a single account.
- **Save the planet!** Cut your carbon footprint with complete online management of your company's training budget. No wasted paper, no red tape.
