

IBM System z Technical Conference 5 - 9 May, 2008

Featuring z/OS, z/VM, z/VSE and Linux on System z

Dresden, Germany

Enrol today in the IBM System z Technical Conference!

IBM System z - the power of many, the simplicity of one! Are your systems secure from external and internal threats? Are you concerned about costly, complex "server sprawl"? Managing security, IT costs and complexity are the top challenges facing enterprises of all types and sizes. This conference provides expert insight into the powerful capabilities of IBM System z, designed to help simplify and secure your infrastructure. This conference, powered by IBM Training, will help you boost your advanced mainframe skills or begin with mainframe basics, improve planning of hardware/software investments, test drive new technologies in hands-on labs, and see product demonstrations in the Solutions Center.

What's new?

- IBM System z9® BC and EC server updates
- z/OS V1.9 migration and new features
- z/VM V5.3 enhancements
- z/VSE V4 refinements
- Linux® on System z developments
- WebSphere® for z/OS implementation
- WebSphere® MQ, DB2®, CICS® and IMS™
- GDPS and Parallel Sysplex latest functionality
- Virtualization
- SOA and System z
- Specialty engines including zIIP, zAAP, and IFL
- IBM System z Security
- System z and the Green Data Center
- Customer System z user experiences

Who should attend

- Mainframe (z/OS, z/VSE, z/VM) programmers, system administrators, technical support managers;
- Linux professionals who want to add mainframe skills;
- Performance analysts, managers, data center managers;
- Hardware or capacity planners who want to learn how to master, manage and exploit information
- Anyone who plans to implement, manage, or operate z/OS, z/VM, and Linux on the IBM System z
- z/VSE
