Course Title, Code and Description	Days	Fee
------------------------------------	------	-----

IBM Cognos 8 Planning Analyst: Build Models (V8.4) (P14014GB)	4	£1900
--	---	-------

Teaches modellers how to design and build models for business planning. Participants will learn the data modelling process and participate in hands-on demos and workshops that illustrate good model design and best practice techniques while learning how to use the product.

IBM Cognos 8 Planning Contributor: Develop Applications (V8.4) (P14053GB)	3	£1425
--	---	-------

Participants will learn to build, administer, and deploy Contributor applications through the Contributor Administration Console. In particular, participants will learn how to develop the Contributor application (based on a Cognos 8 Planning - Analyst model), manage security using the Cognos 8 security model, perform administrative tasks, such as importing and publishing data, and deploy the application to the Cognos 8 portal.

IBM Cognos 8 Planning: Administer the Technical Environment (V8.4) (P14074GB)	4	£1900
--	---	-------

Practice in installing, administering, and troubleshooting Analyst and Contributor. The course outlines how the architecture can be customised to fit into various infrastructures. Students will learn how to integrate Cognos Planning with other Cognos tools and how to implement security.

IBM Cognos 8 Planning: Essentials for Managing Planning Projects (V8.4) (P1409GB)	2	£950
--	---	------

teach project managers and implementation team stakeholders how to help ensure the success of a Cognos 8 Planning implementation. You will be introduced to the Cognos Solutions Implementation Methodology (CSIM), the elements of Cognos 8 Planning, and the underlying architecture.
